### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

6,398,085 to **Foster**.

The patent to **Foster** discloses a sleeve (24) in combination with a pipe / nozzle (34), wherein the one-piece body is formed of a flexible material, including latex and neoprene. The body having an opened bottom and closed top and being removably disposed on the open end of the pipe/nozzle in order to seal the open end. Col. 5, lines 59-62 discloses that after the member has been placed on the pipe (34), a substantially air-tight seal is formed at the outlet opening. A ribbed portion (64) disposed around and defining the open bottom. Fig. 9 discloses an embodiment in which a reinforced portion defines the closed top (62) wherein the sleeve is strengthened at the top and prevented from easily rupturing.

***Response to Amendment***

2. Applicant argues that the contraceptive device of **Grossman** would not hold up in an environment that involves pipes adapted to convey fluids, and that the cap or plug of **Miller** is made of polyvinyl chloride and would lack the flexibility of latex. Applicant further states that the **Hwang** reference does not remedy the deficiencies of **Miller**, as **Hwang** does not have a reinforced portion at the top. The patent to **Foster** discloses the claimed subject matter including a one-piece flexible covering formed of latex having a rolled bottom and a reinforced top that is utilized in covering an opening of a nozzle/pipe that serves as a conduit for fluid.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Mourkidou, Lawton, Seward, Longobardo et al., Weckerle et al., Lee, and Calderwood are pertinent to Applicant's invention in disclosing latex coverings.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (703) 308-0111. As of November 22, 2004, the phone number will be (571) 272-4897. The examiner can normally be reached on M-F 7:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Michael Y. Mar** can be reached on (703) 308-2087. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
